Shoot down enemy formations to score bonus points and increase your firepower! Watch out for heavy ground attacks from tanks and gun emplacements. As the ocean comes into view, gunboat flotillas and battleships cruise at flank speed to intercept you.

Sky Shark has five missions. Each mission is completed when you reach the next airfield.

STATUS AND SCORING

Extra fighters are awarded at 25,000 and 50,000 points. Additional aircraft are awarded at intervals of 50,000 points.
