ENGLISH INSTRUCTION MANUAL

Original graphics edition

Thank you very much for purchasing the Namcot game cartridge BATTLE CITY.

Please read this manual before playing to enjoy the game to its fullest. Packed with classified intelligence, it provides a complete briefing on equipment and enemy forces.

CONTENTS

1 Origins / Precautions	1
2 Controls	2-3
3 How to Play (Characters)	4-6
4 Using Construction Mode	7-9

Battle City is an upgraded version of Tank Battalion, released by Namco in 1980.

Tanks - the kings of ground combat - take center stage. Fierce battles unfold through maze-like city streets. You are greatly outnumbered; victory demands strategy and an unbreakable fighting spirit.

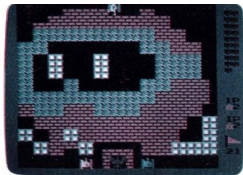

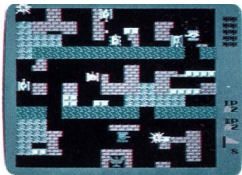

■ PRECAUTIONS FOR USE

- Switch off the console before inserting or removing the cartridge.
- Avoid extreme temperatures and strong shocks. Never disassemble the cartridge.
- Do not touch the connector terminals or allow them to get wet.

2

CONTROLS - GAME OVERVIEW

Brick walls and armored walls form a maze, while forests, rivers and ice fields obstruct you. Protect Headquarters and destroy all 20 enemy tanks.

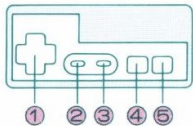

MISSION

Command your tank and use your own strategy to win. If Headquarters is hit, or you lose all your tanks, the battle is over.

2

CONTROLLER

1 D-pad

Move in four directions.

2 SELECT

Choose 1P, 2P or Construction.

3 START

Start, pause or resume.

4/5 B / A

Fire a shell.

■ STARTING A GAME

Press SELECT or START to open the selection screen. Choose one or two players, then press START. Select one of 35 stages: A moves forward and B moves backward. Press START to begin.

Press START during play to pause or resume. The high score remains after RESET.

3 HOW TO PLAY

■ HEADQUARTERS

Located at the bottom center and surrounded by brick walls. If Headquarters is struck by a shell, the game is over.

■ YOUR TANK

Each STAR upgrades your tank, up to three levels.

STARTING TANK

Standard shells

UPGRADE 1

Faster shells

UPGRADE 2

Two-shot firing

UPGRADE 3

Destroys armor

3

SPECIAL TARGETS

Destroy the red flashing target tank (the 4th, 11th and 18th enemy) to reveal one of six bonuses. Each is worth 500 points.

**STAR**

Tank upgrade

**GRENADE**

Destroy enemies

**HELMET**

Protective barrier

**SHOVEL**

Armor around HQ

**TANK**

Extra tank

**CLOCK**

Stop enemies

3 ENEMY TANKS

Four enemy types appear. Each stage contains 20 enemy tanks.

最弱戦車

LIGHT
100 points

高速移動

ARMORED CAR
200 points

高速砲弾

RAPID-FIRE
300 points

4発で破壊

HEAVY
400 points

■ TWO-PLAYER GAME

■ 2人プレイ

2人同時に
プレイできる

● Iプレイヤー
● IIプレイヤー

Player 1 uses the yellow tank; Player 2 uses the green tank. The player who destroys more enemies earns a 1,000-point stage bonus.

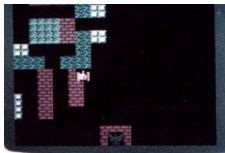

Freely arrange field characters and create your own battlefield.

Choose CONSTRUCTION with SELECT, then press START. A flashing tank and Headquarters appear; the tank is your cursor.

■ BUILDING THE FIELD

1. Move the cursor with the D-pad.
2. Press A to cycle forward through the 14 field characters; press B to go backward.

- 3 When the desired character appears, move the cursor; the character is placed where the cursor was.
- 4 Continue until the battlefield is complete.
- 5 Press START, then choose one or two players with SELECT.
- 6 Use A or B to choose a stage number and enemy formation. Higher numbers are harder.
- 7 After clearing your custom field, play continues with the next numbered stage.
